**Prosthodontist**

Specialist Certified in Dental Implant Surgery,  
Cosmetic and Rehabilitative Dentistry

**Flip through to see how his skill and expertise has touched the lives of many of his patients!**

# Meet Dr. Motlagh!

Dr. Naeem Motlagh was born and raised on the Space Coast of Florida. He attended the University of Florida for undergraduate and dental school (Go Gators!) and graduated in the top 10% of his doctoral class, earning him the distinction of Cum Laude on top of other awards such as High Research Honors, the LD Pankey award for Prosthodontics and Periodontics, and the Pierre Fauchard award for academic achievement in Dentistry.

After dental school, he decided to pursue the specialty of Prosthodontics to learn how to help patients with even the most challenging dental problems, and due to his passion in both the surgical and restorative sides of dental implants. Prosthodontists are also the dental specialists focusing on both cosmetics and long-term health and functionality.

Matching into one of the nation's top Prosthodontic residencies at the University of Connecticut, he was trained under some of the world's experts in the field. After 3 years of rigorous training, he earned his Master's in Dental Sciences, as well as certificates in Prosthodontics and Dental Implant Surgery.

Dr. Motlagh's surgical expertise and artistic skill span various treatment options including All-on-X dental implant treatments, smile makeovers, dentures, crowns, bridges, and veneers. He is known for his gentle, friendly and compassionate demeanor in treating patients, always keeping their comfort and well-being as his top priority. He also is very passionate about science and education; haven given lectures on many topics in the field of dentistry, teaching dental students in the clinic, and publishing articles in the Journal of Clinical and Experimental Dentistry and the Journal of Virology

Outside of the clinic, Dr. Motlagh is a big foodie- enjoying both cooking and trying new foods. In addition, he loves getting outdoors and spending time with friends, girlfriend, and family. El Dr. Motlagh también habla Español.
